The VPL-CS21 & VPL-CX21

(Actual size)

A close-up, black and white photograph of a Sony electronic device. The device is dark with metallic silver accents. The word "SONY" is printed in a white, serif font on two separate parts of the device. The top part is a horizontal bar, and the bottom part is a vertical bar. The background is solid black.

## Award-Winning Performance

Combining **exceptional image quality** with unbeatable ease of use, the new **super slim** Sony VPL-CS21 and VPL-CX21 projectors are perfect for making powerful business presentations in the office or enjoying all-action movies at home. Both models weigh in at **less than two kilos so are really easy to carry** around from place to place. Convenient features like Advanced Intelligent Auto Set-Up and Off & Go give you all the freedom you need at work and play. They're incredibly stylish and have recently been honoured with prestigious iF and Red Dot awards for outstanding product design.

innovation.

## Brilliant Innovation

Sony projectors are renowned for top quality performance and these superb models are certainly no exception. Both the VPL-CS21 and VPL-CX21 feature **3LCD technology** for ultra bright pictures, enhanced detail and even more natural colours. This innovative system separates light from the lamp into its basic red, green and blue components, then shines them through three individual LCDs to deliver sharp, vivid and crystal clear images. With 2100 ANSI lumen brightness, outstanding performance is taken for granted wherever you are presenting.

## Amazing Ease of Use

Switch on the VPL-CS21 or VPL-CX21 and you can start presenting right away. These projectors **set up automatically** on power up to enhance your efficiency in the office. Advanced Intelligent Auto Setup includes your favourite personal settings while Auto Focus guarantees optimum performance. With Auto Keystone Correction, image proportions are perfect and Power Tilt Adjustment allows easy adjustment of the height of the screen for effortless presentation. With such unbeatable ease of use, you'll **spend less time preparing the projector** and more time impressing your customers and colleagues.

stylish & sleek.

SONY

versatile.

## Versatile Performers

Designed to provide all the versatility you need in and out of the office, these projectors include a variety of convenient features for effective presentation. **Off & Go** enables you to immediately unplug the projector after use without damaging the lamp and there are two essential **security features** for locking the control panel and setting up password protection. Both the VPL-CS21 or VPL-CX21 accept HD content and easily connect to wide range of sources including video, audio and computer. With Sony, peace of mind is always guaranteed through our Sony **PrimeSupport** pack for projectors, offering 3 years cover and a range of great services including a dedicated telephone hotline. Should anything go wrong, you can choose between next day delivery of a refurbished projector or repair.

# Advanced Intelligent Auto Set-up

1

Turn on power

2

Auto Setup

3

Ready for display

### Slim and Compact

A height of just 52mm means that the projector is easy to carry in your hand or bag.

### Advanced Intelligent Auto Set-up with Auto Focus Adjustment

Press the 'on' button and the projector will complete the following steps automatically, ensuring ease of operation:

- Projector tilts to previously used angle
- Auto keystone correction is completed
- Built in Auto Focus module corrects focus
- Auto input search occurs

Now it is ready to start your presentation.

### Off & Go Function

The fan continues to cool the projector after the power supply is removed, enabling users to unplug the projector immediately after use, without damaging the lamp. (Other projectors need to be cooled and remain connected to the power supply after use.)

### Control Panel Lock

This function locks the controls on the top and side of the projector, to prevent unauthorised or unintentional use of the controls. Functionality can be switched 'on' or 'off'.

### Password Protection

When this function is activated a password is required to use the projector (if the password is lost, Sony is able to retrieve it.)

### 3LCD Technology

In a Sony 3LCD projector, the picture is created using three 3LCD panels for the red, green and blue colour signal. This results in bright, naturally coloured pictures, with more detail.

### Accepts HD Content

720p and 1080i source material can be displayed.

## PrimeSupport

All Sony business projectors come supplied with a 3-year support pack which offers unique extra services and benefits.

- 3-year cover
  - Free telephone helpdesk (EN, DE, IT, FR and ES) to resolve any technical issues
  - Choice of either a next day replacement unit, or repair of customers own unit
  - Collection and delivery anywhere in EU, Norway and Switzerland
  - Included with all sales in EU, Norway and Switzerland
